Definitions - the GDPR (General Data Protection Regulation) is the new Data Protection Regulation of the European Union; - data management: any operation or set of operations performed on personal data or data files in an automated or non-automated manner, such as collection, recording, organization, segmentation, storage, transformation or change, query, insight, use, communication, transmission, distribution or otherwise by making available, coordinating or connecting, limiting, deleting or destroying; - data processor: the natural or legal person, public authority, agency or any other body that processes personal data on behalf of the data controller; - personal data: any information relating to an identified or identifiable natural person (data subject); a natural person can be identified directly or indirectly, in particular on the basis of an identifier such as name, number, location data, online identifier or one or more factors relating to the physical, physiological, genetic, mental, economic, cultural or social identity of the natural person identifiable; - data controller: the natural or legal person, public authority, agency or any other body that determines the purposes and means of processing personal data independently or together with others; if the purposes and means of data management are determined by EU or member state law, the data controller or the special aspects regarding the designation of the data controller may also be determined by EU or member state law; - the consent of the data subject: the voluntary, specific and clear declaration of the will of the data subject based on adequate information, with which the data subject indicates by means of a statement or an act clearly expressing the confirmation that he gives his consent to the processing of his personal data; - data protection incident: a breach of security that results in the accidental or unlawful destruction, loss, alteration, unauthorized disclosure or unauthorized access to personal data transmitted, stored or otherwise handled. - recipient: the natural or legal person, public authority, agency or any other body to whom the personal data is communicated, regardless of whether it is a third party. Public authorities that have access to personal data in accordance with EU or Member State law in the context of an individual investigation are not considered recipients; the management of said data by

these public authorities must comply with the applicable data protection rules in accordance with the purposes of data management; - third party: the natural or legal person, public authority, agency or any other body that is not the same as the data subject, the data controller, the data processor or the persons who have been authorized to process personal data under the direct control of the data controller or data processor . Data management guidelines The data controller declares that it handles personal data in accordance with the provisions of the data management information sheet and complies with the provisions of the relevant legislation, with particular attention to the following: Personal data must be handled legally and fairly, as well as in a transparent manner for the data subject. Personal data may only be collected for specific, clear and lawful purposes. The purpose of processing personal data must be appropriate and relevant, and can only be to the extent necessary. Personal data must be accurate and up-to-date. THE inaccurate personal data must be deleted immediately. Personal data must be stored in such a way that identification of the data subjects is possible only for the necessary period. Personal data may be stored for a longer period of time only if the storage is for the purpose of archiving in the public interest, for scientific and historical research purposes, or for statistical purposes. The processing of personal data must be carried out in such a way that the appropriate security of personal data is ensured by applying appropriate technical or organizational measures, including protection against unauthorized or illegal processing, accidental loss, destruction or damage of data. The principles of data protection shall be applied to all information relating to identified or identifiable natural persons. Important data management information The purpose of data management is to enable the service provider / data manager to provide appropriate additional services to the persons registered on the website during the operation of the website. The legal basis for data management is the consent of the person concerned. The persons involved in data management are registered users of the website. Duration of data management and deletion of data. The duration of data management always depends on the specific user goal, but the data must

be deleted immediately if the originally set goal has already been achieved. The person concerned can withdraw their consent to data management at any time by sending a letter to the contact e-mail address. If there is no legal obstacle to the deletion, in this case your data will be deleted. The data controller and its employees are entitled to access the data. The person concerned may request from the data controller access to the personal data concerning him, their correction, deletion or restriction of processing, and may object to the processing of such personal data, as well as to the data subject's right to data portability. The person concerned may withdraw his data processing consent at any time, but this does not affect the legality of the data processing carried out on the basis of the consent before the withdrawal. The person concerned may use the right to submit a complaint to the supervisory authority. If the person concerned wants to use the benefits provided by the registration, i.e. wants to use the website's services in this direction, it is necessary to provide the requested personal data. The person concerned is not obliged to provide personal data, and failure to provide data will not have any adverse consequences. However, it is not possible to use certain functions of the website without registration. The affected person has the right to have the data manager correct or complete inaccurate personal data concerning him without undue delay upon request. The data subject has the right to request that the data controller delete inaccurate personal data concerning him without undue delay, and the data controller is obliged to delete the personal data concerning the data subject without undue delay, if there is no other legal basis for data processing. Modification or deletion of personal data can be initiated by e-mail, phone or letter using the contact options provided above.

Invoicing The purpose of data management is to issue and send an electronic invoice as an e-mail attachment. The legal basis for data management is mandatory data management based on legislation. Those involved in data management are the customer partners of the service provider. Duration of data management. Data management takes place until legal requirements or withdrawal of consent. You can withdraw your consent to data management at any time by sending a letter to the contact

e-mail address. Data is deleted when consent to data management is revoked. You can withdraw your consent to data management at any time by sending a letter to the contact e-mail address. Invoicing data can be deleted in accordance with legal regulations. The data controller and its employees are entitled to access the data. Data storage method: electronic. Modification or deletion of account data can be initiated by e-mail, phone or letter using the contact options provided above.

The scope of processed data is accommodation services

Date of issue of invoice The user's data management consent can be given by intentionally ticking the empty checkbox on the website that is specifically for this purpose. The person concerned can object to the processing of his personal data, in this regard he is entitled to the procedure according to the data management information detailed above and this information sheet, as well as the legislation described in the information sheet. Cookies The cookie are placed on the user's computer by the visited websites and contain information such as page settings or login status. Cookies are therefore small files created by visited websites. By saving browsing data, they improve the user experience. With the help of cookies, the website remembers the website settings and offers locally relevant content. The provider's website sends a small file (cookie) to the computer of website visitors in order to determine the fact and time of the

visit. The service provider informs the website visitor about this. The group of persons involved in data management are website visitors. The purpose of data management is additional services, identification, and tracking of visitors. Legal basis for data management. The user's consent is not required if the service provider absolutely needs it to use cookies. Scope of the data: unique identification number, time, setting data. The user has the option to delete cookies from the browser at any time in the Settings menu. Data controllers are entitled to access the data. The data controller does not process personal data using cookies. Data storage method: electronic.

Community sites Social media is a media tool where the message is spread through social users. Social media uses the Internet and online exposure to transform users from content receivers to content editors. Social media is an interface of Internet applications that contains content created by users, such as Facebook, Google+, Twitter, etc. Social media can include public speeches, lectures, presentations, product or service presentations. Forms of information published in social media can be forums, blog posts, image, video and audio materials, message boards, e-mail messages, etc. In accordance with the above, the range of processed data may include the user's public profile picture in addition to personal data. The scope of those affected: all registered users. The purpose of data collection is to promote the website or its related website. The legal basis for data management is the voluntary consent of the data subject. Duration of data management: according to the regulations that can be viewed on the given social media page. Data deletion deadline: according to the regulations that can be viewed on the given social media page. They are entitled to access the data: according to the regulations that can be viewed on the given social media page. Rights related to data management: according to the regulations that can be viewed on the given social media page. Data storage method: electronic. It is important to take into account that when the user uploads or submits any personal data, he gives the operator of the social site a worldwide license to store and use such content. Therefore, it is very important to make sure that the user has full authorization to communicate the published information. Google Analytics Our website uses

the Google Analytics application ☐x does not use it When using Google Analytics: Google Analytics compiles a report for its customers on the habits of website users based on internal cookies. On behalf of the website operator, Google uses the information to evaluate how users use the website. As an additional service, it prepares reports related to website activity for the website operator so that it can provide additional services. The data is stored on Google's servers in an encrypted format in order to make it difficult and prevent misuse of the data. You can disable Google Analytics as follows. Quote from the site: Website users who do not want Google Analytics JavaScript to report their data can install a Google Analytics opt-out browser extension. The plugin prevents Google Analytics JavaScript (ga.js, analytics.js, and dc.js) from sending information to Google Analytics. The browser extension can be used in most recent browsers. The Google Analytics blocking browser extension does not prevent data from being sent to the website itself and other internet analytics services.
